

The Infant Informative

Friday 19th November 2021

Issue 10

Pic of the week!

- This week the key text has been The Three Little Pigs. The children have been using their sounds to write words such as 'p-i-g' and learnt about houses and homes. Including talking about their own homes. Today, the children also took part in role play activities in the outdoor area about crossing the road safely with an adult.
- In Year 1 this week the children brought in their favourite toys for History. They loved talking about why they were their favourite toy and what they thought it was made from. In Science they were learning their birthday month and the season they were born in. The children created a bar chart of all the birthdays of the class. Computing was great fun as the children got to use Lego to help them learn how to give precise, step-by-step instructions to a partner to make a model.
- Year 2 have continued their exploration of The Great Fire of London. Try the activities on www.fireoflondon.org.uk In Science we have been investigating why the properties of some materials make them more suitable than others for a particular purpose. Our work in PSHE has features strongly this week as we have been thinking about Road Safety as well as the importance of kindness to one another. We have been very pleased with the children's progress in reading and would like to thank you for your regular support with this at home. The children always look forward eagerly to sharing a book in our daily story-telling session.

Week ten

Another successful week of learning, exploring and playing complete. This week we had two overarching whole school themes: Road Safety Week and Anti-bullying week. The children started the week with an assembly talking about roads, being passengers in cars and the importance of listening to their grown-ups whenever they are walking outside - including on pavements!

Today the children also took part in an anti-bullying workshop where they learnt about: what bullying is, why we shouldn't bully and which steps to take if they feel bullied. The children did this brilliantly. We defined bullying as 'on purpose' and 'over and over again'. We also learnt an anti-bullying song complete with actions. I couldn't believe how quickly they picked up the lyrics and moves!

A reminder that on the first occasion your child is ill and not attending school please do make the office aware. If your child's absence is for more than 2 days, please call the office and provide an update.

Tomorrow is 'World Children's Day', extra hugs and kisses for your little ones required!!

Have a peaceful weekend.

Boshea
Mr O'Shea

DIARY DATES

- Book fair Yr 2 22/11
- Book fair Yr 1 24/11
- Book fair Reception 25/11

NHS

Your child should not come into school if they have any of the following symptoms:

In Surrey there has been an increase of 63% in positive COVID cases. If you are in any doubt about your child's health including a cold, vomiting, diarrhoea and being 'under the weather' we recommend seeking a PCR test (at a testing centre). Tests are readily available at walk in and drive in centres with results turning around within 12/24 hours. These are always free of charge. We strongly encourage all families to regularly test (twice weekly) the whole family including young children, as there have been many cases in Surrey of children and adults being positive with COVID without any symptoms whatsoever.

Sponsored Move to Lapland

You should have found a sponsorship form and letter in book bags this week. This is for our challenge to collectively walk, cycle, and/or scooter to Lapland, 1,464 miles away between 17th November and Wednesday 15th December 2021.

All the details are in the letter but in short we have two goals for this:

- 1) To collectively walk/ scooter/ cycle to Lapland
- 2) To raise £4,000 so the school can buy 15 laptops. This will mean each child will have their own laptop during computing lessons, instead of sharing.

If each child travels 8 miles and raises £20 we will achieve our target! (That's just 2 miles per week.)

To keep track of our progress please email LaplandCRIS@outlook.com each Wednesday (24th Nov, 1st, 8th & 15th Dec) with the following:

- Child's name and class
- Number of miles completed to date
- Sponsorship raised to date

There are prizes! To give you an extra incentive, there are prizes available. There will be:

- A weekly prize draw for every child who has logged miles that week.
- A prize for the child that logs the most mileage over the next four weeks
- A class prize for the class that raises the most money throughout the challenge

So, next steps are to start getting sponsorship, and start clocking up the miles. We can't wait to see how the children get on with their miles.
