Dear Benedict

I am writing to you in relation to your recent Ofsted inspection.

I was delighted to see that the school is rated overall as Good and would like to congratulate you and your team.

It was wonderful to read that pupils achievements are improving, and it is evident from the report that the changes being implemented are having an overall positive effect. It is encouraging to read that schools are working collaboratively to support the learning of all children.

The comments made around the behaviour of pupils are a joy to read and I also noted with interest the section on well-being and how pupils are supported to broaden their interests through sports and extra-curricular clubs.

Congratulations, you must be rightly proud to have achieved this endorsement.

Kind regards
