

Special Educational Needs: Disability and Inclusion Policy

This Special Educational Needs and Disability Policy
was approved and adopted by the Trust Board: September 2024
It will be reviewed: September 2025

Special Educational Needs, Disability and Inclusion Policy

Crawley Ridge Infant School believes that all pupils are entitled to an education that enables them to achieve their best, become confident individuals living fulfilling lives, and make a successful transition into adulthood. The areas of need fall into four broad categories which are:

- Communication and Interaction
- Cognition and Learning
- Social, Emotional and Mental Health
- Sensory and Physical

For more information on these areas, please refer to our [SEN information report](#).

What are special educational needs and disabilities?

Children are classed as having SEND (Special Educational Needs and Disabilities) if they have:

- » 'a significantly greater difficulty in learning than the majority of others of the same age, or
- » a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions'

Introduction xiv SEND Code of Practice: 0 to 25 years, 2014

How does Crawley Ridge Infant School identify pupils who may have SEND?

All staff have a secure knowledge of pupil development. Crawley Ridge Infant School will monitor all children in the setting and use age-related expectations to guide the support offered.

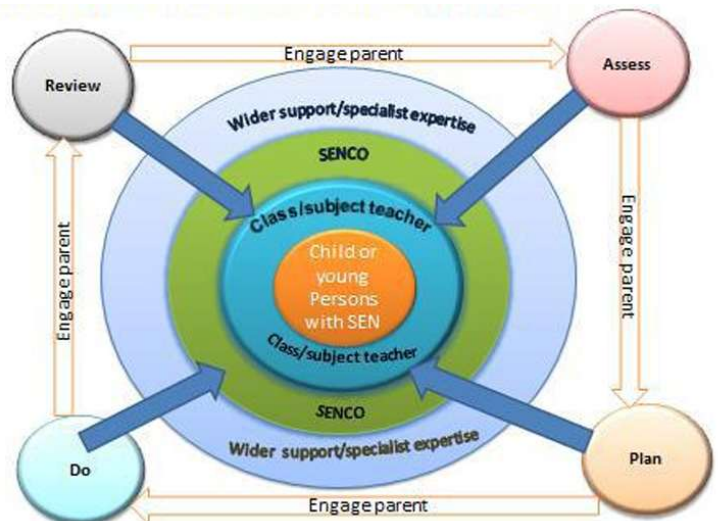

Where a concern has arisen about a pupil's progress, and during the process of monitoring the child, the school may decide to provide short term **additional to or**

different from provision (e.g. small group intervention), with an aim to help the child narrow the gap quickly, so that further SEND provision is not needed. We ensure that staff have regular and up-to-date training in order to best meet the needs of the pupils they are working with.

If further support is required, we will discuss with parents/carers what provision can be provided within the setting.

How are pupils with SEND supported at Crawley Ridge Infant School pupils?

At Crawley Ridge Infant School, we use the Assess/Plan/Do/Review cycle to ensure that pupils needs are appropriately met at every stage.

When we are caring for a pupil with SEND, we create a targeted plan (Individual Learning Plan or ILP) in collaboration with pupil, class teacher and parents/carers. This plan details any additional provisions we will be making for the child and how we intend to meet their needs. This plan will be reviewed termly and shared with parents/carers. As an inclusive setting, we will provide suitable adaptations to ensure all children are able to access curriculum experiences. At all times, we will

endeavour to develop children's self-esteem, encourage the child's confidence and increase their independence.

How does Crawley Ridge Infant School work with parents/carers when a pupil has SEND?

At Crawley Ridge Infant School, we work in close partnership with parents/carers and encourage an ongoing dialogue to better support their child.

When a plan has been created, parents/carers will be encouraged to use similar techniques at home as we do in the setting, to provide continuity for the child and to allow them to achieve their best outcomes.

Will pupils with SEND have access to specialist support agencies and resources?

Where appropriate, we will discuss with parents/carers the possibility of external agency involvement and we may encourage families to seek further advice, guidance and assessment.

We are part of TAMAT, which provides opportunities for sharing advice and expertise between SENDCos. In addition to this, where appropriate, we will seek advice from a range of professionals including: Educational Psychologists, Specialist Teachers for Inclusive Practice (STIPs) Speech and Language, Occupational therapy, MindWorks, Mental Health Support Team, Freemantles Outreach. Any discussions with external professionals will be kept confidential at all times and the pupil will only be discussed with other agencies with permission from parents/carers.

How does Crawley Ridge Infant School support pupils through transitional periods?

At Crawley Ridge Infant School, we recognise the importance of a smooth transition to ensure stability for the pupils. As such, we

meet with previous settings to gather specific information about how best to support the pupils. We also meet with the pupil's next setting in order to share our knowledge of how best to support the needs of the pupil moving forward. For more detailed information about transition, please refer to our [SEN Information Report](#).

How does Crawley Ridge Infant School support pupils who are Looked After?

At Crawley Ridge Infant School, we have a Designated Teacher for Looked After and Previously Looked After Children: this is Benedict O'Shea, who is responsible for managing the provision of LAC and previously LAC to ensure that their needs are accounted for, regardless of whether they have SEND. This will involve liaising with school staff and outside agencies to implement and oversee specific provision in order to promote their educational achievement, wellbeing, and emotional development. The Designated Teacher has overall responsibility to ensure that high expectations of all aspects of the Looked After/Previously Looked After Child's achievement are promoted by all school staff and agency professionals.

What wellbeing support does Crawley Ridge Infant School offer to pupils?

We support the emotional, mental and social development of children with SEND by providing extra pastoral support arrangements. We make provision for pupils' spiritual, moral, social and cultural development. For more detailed information on available support, please refer to our [SEN Information Report](#).

Complaints procedure

For complaints, please refer to the school's complaints policy, available on the school website.
